## Background

It is a well-documented and established fact that the Oromo people in general and Oromo students and youth in particular have been in constant and continuous protest ever since the current TPLF led Ethiopian government came to power. The current protest which started late April 2014 on a large scale in all universities and colleges in Oromia and also spread to several high schools and middle schools begun as opposition to the so called “Integrated Developmental Master Plan” or simply “the Master Plan”. The “Master Plan” was a starter of the protest, not a major cause. The major cause of the youth revolt is opposition to the unjust rule of the Ethiopian regime in general. The main issue is that there is no justice, freedom and democracy in the country. The said Master Plan in particular, would expand the current limits of the capital, Addis Ababa, or “Finfinne” as the Oromos prefer to call it, by 20 folds stretching to tens of Oromian towns surrounding the capital. The Plan is set to legalize eviction of an estimated 2 million Oromo farmers from their ancestral land and sell it to national and transnational investors. For the Oromo, an already oppressed and marginalised nation in that country, the incorporation of those Oromian cities into the capital Addis Ababa means once more a complete eradication of their identity, culture, and language. The official language will eventually be changed to Amharic. Essentially, it is a new form of subjugation and colonization. It was the Oromo university students who saw this danger, realized its far-reaching consequences and lit the torch of protest which eventually engulfed the whole Oromia regional state.

For the minority TPLF led Ethiopian regime, who has been already selling large area of land surrounding Addis Ababa even without the existence of the Master Plan, meeting the demands of the protesting Oromo students means losing 1.1 million of hectares of land which the regime planned to sell for a large sum of money. Therefore, the demand of the students and the Oromo people at large is not acceptable to the regime. It has therefore decided to squash the protest with its forces armed to the teeth. The regime ordered its troops to fire live ammunition to defenceless Oromo students at several places: Ambo, Gudar, Robe (Bale), Nekemte, Jimma, Haromaya, Adama, Najjo, Gulliso, Anfillo (Kellem Wollega), Gimbi, Bule Hora (University), to mention a few. Because the government denied access to any independent journalists it is hard to know exactly how many have been killed and how many have been detained and beaten. Simply put, it is too large of a number over a large area of land to enumerate. Children as young as 11 years old have been killed. The number of Oromos killed in Oromia during the current protest is believed to be in hundreds. Tens of thousands have been jailed and an unknown number have been abducted and disappeared. The Human Rights League of the Horn of Africa, who has been constantly reporting the human rights abuses of the regime through informants from several parts of Oromia for over a decade, estimates the number of Oromos detained since April 2014 as high as 50, 000.

In this report we present a list of 61 Oromos that are killed and 903 others that are detained and beaten (or beaten and then detained) during and after the Oromo students protest which begun in April 2014 and which we managed to collect and compile. The information we obtain so far indicates those detained are still in jail and still under torture. Figure 1 below shows the number of Oromos killed from different zones of Oromia included in this report. Figure 2 shows the number of Oromos

detained and reportedly facing torture. It has to be noted that this number is only a small fraction of the widespread killings and arrest of Oromos carried out by the regime in Oromia regional state since April 2014 to date. Our Data Collection Team is operating in the region under tight and risky security conditions not to consider lack of logistic, financial and man power to carry the data collection over the vast region of Oromia.

Figure 1: Oromos Killed by zone

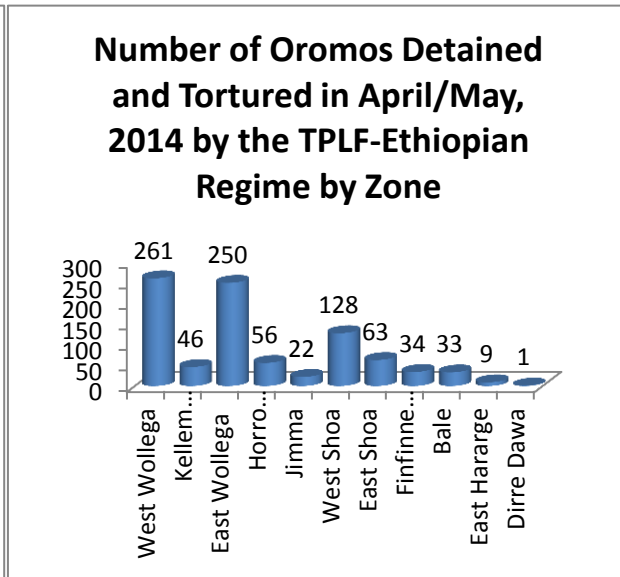

Figure 2: Oromos Detained and tortured by zone

We have received continuous reports that all that have been detained have gone through intense interrogation through brutal torture. Some have died in their prison cells because they are unable to endure the inhuman torture and beating. Routinely prisoners will be asked to “expose” with whom they are working and who organized them and who is the leader and organizer of the protest. They will also be accused of being a member of the Oromo Liberation Front (OLF), the oldest and popular Oromo liberation front fighting for the right of the Oromo people. Just as the Apartheid regime of South Africa had labelled ANC a “terrorist” organization, the TPLF led Ethiopian regime has also declared the OLF as a “terrorist” organization and any suspicion of association with the organization, valid or not, results in severe punishment and conviction including death. Ironically, the overwhelming majority of Oromo mass supports the OLF if they get the chance and the opportunity. Therefore, the current TPLF led Ethiopian regime is in war with the entire Oromo nation. As a consequence, Oromos are killed, beaten, detained and tortured in mass. They are targeted for no reason other than being Oromo since every Oromo, including many members of the ruling Oromo people’s Democratic Organization (OPDO), is believed to be supporting the OLF from his/her heart. Particularly Oromo students are dismissed from school for no reason other than participating in the protests peacefully and demanding their rights. As we write this report, members of our Data Collection Team are compiling hundreds of school dismissals of Oromo students from various universities and colleges, including Addis Ababa University. The “crimes” of these students is the same: participating in peaceful protests.

## Methodology

In order to understand how the data in this report is collected and compiled, it is necessary to know how the National Youth Movement for Freedom and Democracy (NYMFD) aka Qeerroo Bilisummaa, the organization under which this “Data Collection Team” is operating, is organized and function in Oromia. “Qeerroo Bilisummaa” or simply “Qeerroo” is an underground Oromo youth group organized in 2011, inspired by the Arab Spring, in order to carry “non-violent” struggle, called “*Fincila Diddaa Gabrummaa*”, meaning “Revolt against Subjugation”. Initially, the organization based itself in higher education institutions, but quickly stretched its structures in high schools, Oromo farmers, Oromo business men and women and government employees. Members of Qeerroo are abundant in the Oromian Police, Federal Police, the Ethiopian Army, prison guards, judges, and even members of the ruling OPDO party. As a result, our Data Collection Team often times receive accurate reports of those Oromos who are killed and detained and tortured from the same people who carry out the orders of the killings, detention and torture.

Every effort has been made to complete the data about a particular person reported to have been killed, detained, and beaten or undergone several forms of torture: location, occupation, and grade and/or year and department if the subject is a student. Where complete information has not been found we left blank or question mark (?) in the hope that international human rights organizations will make research and fill the gaps.
